TO: District Parents/Guardians

FROM: Marc Pritchard, Food Service Director

DATE: September 19, 2016

Great news, we now have an online Food Service Portal for parents to view their children/s lunch accounts. To access the web page, parents need to go to the ER home page, once there click on the 'Quick Links' tab to the right of the home page select the drop down menu and click on 'Food Service Portal'. This will take you to the food service log-in area.

If you have not received a user name and login, please contact me at 264-6077. Once you are logged in you can access your children/s meal accounts and see what the balance of the account is; what the student has purchased and when they purchased the item/s; and how much the student was charged.

Applications for free and reduced meals can also be submitted through the Food Service Portal.

The Food Service Portal is a new feature that has been created this school year for parents to use as a tool to track their children/s lunch account, unfortunately at this time payments cannot be made through the website.
